

A Note from Camp Quality Eastern Ontario

2023 was our second year back at in-person camp since the pandemic began. We learned a lot in 2022, and with your support we were able to build back stronger and serve more children affected by childhood cancer. **We look forward to continuing to grow with you.**

Who we Served

28 Campers
47 Volunteers

That means...

5 Campfires
174 Unique Camp Days*
432 S'mores
217 Penguin Plunges

Countless smiles, laughs, and moments of connection

*number of campers x days at camp

Post-camp surveys showed

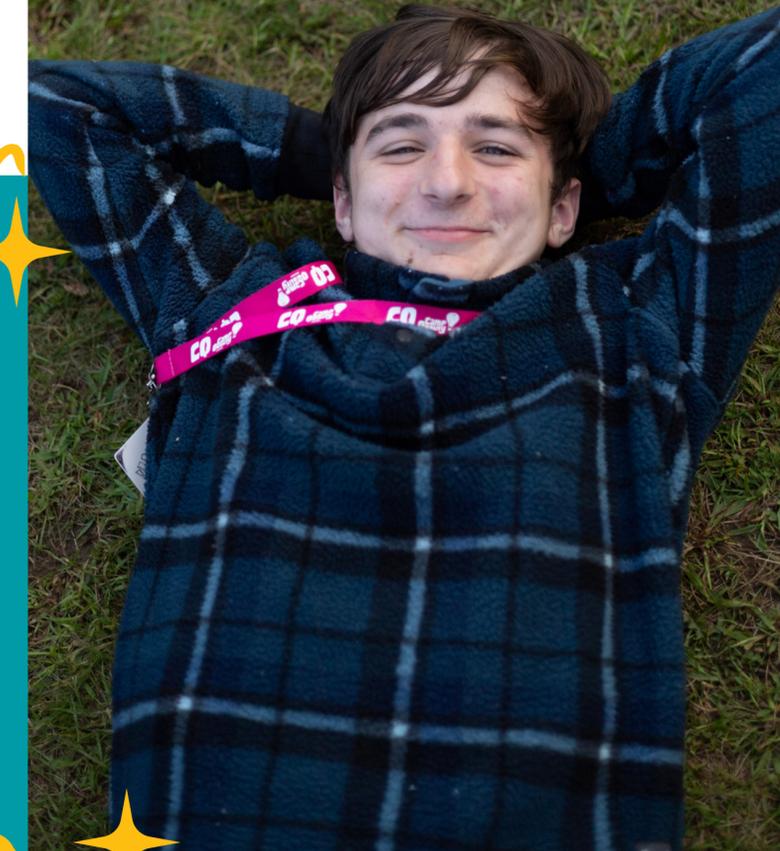

that of families who responded:

- 90% reported that their camper **bonded with those with similar experiences**
- 100% reported that their camper felt **accepted and understood**
- 90% reported that their camper **made a new friend**
- 80% reported that their camper's **social skills** improved
- 80% reported that their camper's **self-esteem** improved

Looking Forward

Families are telling us they want to come to camp together so we are piloting some new opportunities. We need more volunteers to make this happen so we are focusing on retention and recruitment, as well as growing our funding base to ensure we have the funds necessary to meet the needs of our community.

What makes camp so special?

"if you give me the choice to enter in the house or go back to camp I choose the camp!" - Camper

"First year at camp, definitely not the last. Absolutely loved the care & attention given to ALL kids affected by childhood cancer - Camp Quality gets it!" - Parent

NEW in 2023

- ✓ Traveling staff team to support volunteers
- ✓ Updated and improved volunteer training
- ✓ Family lunch before camp to meet the community

THIS WAS ALL POSSIBLE BECAUSE OF YOUR SUPPORT.

THANK YOU!
